DETAILED ACTION

Allowable Subject Matter

1. Claims 24-60 are allowed.
2. The following is an examiner's statement of reasons for allowance:

A thorough search of the prior art fails to disclose any reference or references, which, taken alone or in combination, teach or suggest, in combination with the other limitations, means for selecting a period preceding the prize draw and determining the amount wagered on the gaming machine during the selected period after it has elapsed, wherein the probability of the gaming machine winning the prize is dependent on the amount wagered on the gaming machine during all the selected elapsed period.

Note that this is interpreted to mean that the odds of winning per game are changed dependent on the rate of play. The odds of winning in a particular period of time are inherently dependent on the rate of play – the more one plays in a particular period, the more chances one has to win. Walker et al. (US Patent Number 6,238,288), the nearest prior art, adjusts the potential payout amount based on the rate of play, but does not adjust the odds. Walker, in fact, teaches away from changing the odds, stating that the odds ("House Edge") are difficult to change for regulatory reasons. (Col 1, 22-24)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
